E-SafetyPro

EXPERIENCE + TECHNOLOGY = INSTANT, CUSTOM SAFETY SOLUTIONS

We combine decades of HSE leadership with advanced digital capability to help organizations understand, manage, and control safety risks — turning professional expertise into practical, data-driven results.

WHAT WE BUILD AND DEPLOY

Examples of tailored solutions — and we create many more based on each client's goals and ideas.

Project HSE Risk Analysis

Portfolio-level and site-specific profiles.

Culture Maturity Surveys

Data-driven insights with clear recommendations.

Job Hazard Analysis (JHA)

Fast, field-ready templates and reports.

Safety Orientations & Quizzes

Interactive learning with instant certificates.

Safety Moments Library

Ready-to-use, industry-specific discussions.

Multi-Employer Project Risk Assessment

Clarifying roles, control, and diligence gaps.

HOW EXPERTISE + TECHNOLOGY HELP

Our approach integrates professional judgment with intelligent tools to drive clarity, speed, and measurable results.

Strengthen Leadership & Accountability

Provide tools and expertise for risk-based leadership.

Visualize & Manage Risks

Turn data into actionable intelligence for improvement.

Accelerate Implementation

Deploy custom solutions quickly and adapt as you grow.

LET'S WORK TOGETHER

We're continuously refining and developing new ways to enhance safety performance through technology and collaboration.

Try our tools, share your feedback, and suggest new ideas — your input helps shape practical solutions for the entire industry.

Idea Submissions

Have a need, challenge, or
concept?

Let's turn it into the next e-
SafetyPro solution.

e-SafetyPro

LET'S BUILD YOUR NEXT SAFETY SOLUTION

From concept to deployment — we design, build and implement tools that make safety measurable, collaborative, and sustainable.
